

Bhavin Gajjar

Senior PHP / Laravel Developer – Node.js

Ahmedabad, Gujarat, India | +91 8530453855 | gajjarbhavin22@gmail.com | linkedin.com/in/bhavingajjar |
github.com/bhavingajjar | about.me/bhavingajjar

Summary

Backend-focused Software Engineer with 8+ years of experience building and leading development on **PHP / Laravel** production systems, with hands-on experience in **Node.js** and React.js for full-stack feature delivery. Currently building backend services for a Hyperlocal delivery platform, Warehouse Management System (WMS), and Transport Management System (TMS) in the cold-chain logistics domain. Skilled in AI-assisted development using Cursor, Claude, GitHub Copilot, and OpenAI Codex, including building workflow automations to speed up coding, testing, and delivery. Proven track record designing REST APIs, MVC applications, and database-driven web platforms across logistics, healthcare, e-commerce, and ed-tech domains. Experience leading small back-end teams, mentoring developers, and owning projects end-to-end from requirements to deployment.

Skills

Languages: PHP, JavaScript, HTML, CSS, SQL

Backend: Laravel, Vite, NativePHP, Livewire, CodeIgniter, **Node.js**, REST API Development, MVC, OOP, Composer, cURL

Frontend: React.js, jQuery, AJAX, Bootstrap, JSON, Progressive Web Applications (PWA)

Database: MySQL, Redis, PhpMyAdmin

Tools & DevOps: Git, GitHub, Jira, Postman, PhpStorm

AI Tools: Cursor (cursor.com/@bhavingajjar), Claude, GitHub Copilot, OpenAI Codex – AI-assisted coding & workflow automation generation

Practices: Technical Leadership, Team Leadership, Agile, API Design, Web Services, Code Review

Languages Spoken: English (Professional), Hindi (Native), Gujarati (Native)

Experience

Senior Backend Developer

Celcius Logistics Solutions Pvt Ltd

Jul 2023 – Present

Ahmedabad, Gujarat, India

- Develop and maintain backend services in PHP/Laravel for Celcius' **Hyperlocal** platform (hyperlocal.celcius.in), supporting last-mile temperature-controlled delivery across a rider network.
- Build and maintain backend modules for an in-house **Warehouse Management System (WMS)** used to track cold-storage inventory, stock movement, and facility operations.
- Contribute to an in-house **Transport Management System (TMS)** handling reefer-truck trip planning, dispatch, and shipment tracking across the logistics network.
- Design and integrate **REST APIs** powering real-time tracking and operations workflows for the cold-chain logistics network (celcius.in).
- Work cross-functionally with product and operations teams to translate business requirements into scalable backend features.
- Use **AI tools (Cursor, Claude, GitHub Copilot)** to build custom workflow automations, speeding up repetitive coding, code review, and testing tasks.

Software Engineer

albanero

Apr 2022 – Jun 2023

Hyderabad, Telangana, India (Remote)

- Built and maintained backend components for albanero's data mesh platform, contributing to data integration pipelines and API layers.
- Collaborated in a remote, cross-functional engineering team following agile delivery practices.

Senior Software Engineer

Bacancy Technology

Aug 2021 – Mar 2022

Ahmedabad, Gujarat, India (Remote)

- Developed **Laravel**-based **REST APIs** for *leadpops*, a mortgage-industry leads management platform.
- Delivered backend features independently in a fully remote, distributed-team environment.

Technical Lead – PHP Department

Techplus Software Private Limited

Apr 2020 – Jul 2021

Ahmedabad, Gujarat, India

- Led the PHP department, overseeing technical direction, code quality, and delivery timelines for the Laravel development team.
- Directed the refactor of **OfficeAutomatedHub.com** (employee attendance, training, and task-management system) from CodeIgniter into **Laravel** and React.js, owning back-end REST API architecture for the migration.

- Reviewed code and mentored developers, establishing coding standards across the PHP team.

Senior Web Developer

Techplus Software Private Limited

Apr 2019 – Apr 2020

Ahmedabad, Gujarat, India

- Built backend services in **Laravel** for **Guniguru.com**, an online video-based coaching/learning platform serving clients across 2 platforms (Android and iOS).
- Worked with a distributed remote team to deliver REST APIs consumed by web, React.js, and mobile clients.

Web Developer

Techplus Software Private Limited

May 2017 – Mar 2019

Ahmedabad, Gujarat, India

- Lead developer on **AdamWilkeyChiropractor.com**, a **Laravel/MySQL** slot-booking system for a chiropractic clinic.
- Backend developer on **ClaimIt ObvioHealth**, a large Laravel-based clinical trials management portal, working as part of a remote team.
- Contributed to shorter-term projects including orthopedic equipment management and a car booking system.

Early Career – Trainee/Web Developer Roles

Techplus Software Pvt Ltd, Freelance, CreArt Solutions

2014 – 2017

Ahmedabad, Gujarat, India

- Started career building PHP/CodeIgniter web applications over a 3-year span (2014–2017); progressed from Trainee Web Developer to Web Developer through hands-on project delivery and freelance work during postgraduate studies.

Certifications

PHP Tutorial Course – Sololearn (2016) | HTML Fundamentals Course – Sololearn (2016) | JavaScript Basics Course – Sololearn (2016) |

Vibe Coding | POSH (Prevention of Sexual Harassment)

Microsoft Learn Profile – learn.microsoft.com/en-us/users/bhavingajjar

Honors & Awards

Employee of the Quarter | Team of the Quarter | Cyberpunk Techno Mantra (2016)

Open Source

Laravel API Generator with Resources – REST API generator package for Laravel (48 stars) – github.com/bhavingajjar/laravel-api-generator

Laravel Python – Package to run Python scripts from within Laravel applications (44 stars) – github.com/bhavingajjar/laravel-python

Laravel MySQL Spatial – Maintained fork adding MySQL Spatial Data Types & Functions support for Laravel – github.com/bhavingajjar/laravel-mysql-spatial

Laravel Make Extender – github.com/limewell/laravel-make-extender

GitHub Profile – github.com/bhavingajjar (9 public repositories)

Education

Master of Science – Computer Application & Information Technology (M.Sc. CA & IT)

Gujarat University

Jun 2015 – Apr 2017

Ahmedabad, Gujarat, India GPA: 3.70 / 5.0

Bachelor of Science – Computer Application & Information Technology (B.Sc. CA & IT)

Gujarat University

Jun 2012 – Apr 2015

Ahmedabad, Gujarat, India GPA: 2.94 / 5.0
